

SolarInvert Energy Solutions

350kW PV Inverter

Overview

What is a Sungrow 350kW on-grid inverter sg350hx?

Experience unmatched power conversion with the Sungrow 350Kw On-grid Inverter SG350HX. This advanced inverter delivers high efficiency and reliability, enabling seamless integration of solar energy into the grid. With its robust design and intelligent monitoring capabilities, it's the perfect choice for large-scale solar installations.

What is a Solis S6 gu350k EHV three-phase PV inverter?

Solis S6 GU350K EHV three-phase PV inverters with a power of 350kW, 1500V DC input and 800 VAC output are designed to provide a more cost-effective adaptive solution for utility PV projects. It has maximum efficiency of up to 99%, with 12/16 MPPTs and 32 inputs, the string current is 20A, with perfectly matching efficient high-power PV module.

How much does a 500KW inverter cost?

The cost of a 500kw inverter ranges from 10 to 99999. The price of a 500kw inverter varies by different parameters. Haven't found what you want?

Post sourcing requests and get quotations quickly. Stay updated to what's new and popular on the market.

What is a string inverter?

Basic Info. String inverters transform the direct current (DC) from your PV panels into an alternating current (AC) that can be fed into the electrical grid. String inverters are mostly used in residential and commercial solar projects such as rooftop, carport, ground mount and tracker installations.

What is a Sungrow inverter?

The Sungrow inverter is a powerful and versatile model designed for large-scale solar energy systems. With an impressive maximum input voltage of

1500V, the inverter is capable of handling a wide range of solar panel configurations. Furthermore, with up to 16 MPPTs, the inverter can optimize solar energy production even in variable conditions.

What is the power range of a Sungrow string inverter?

Sungrow string inverters come in a power range between 2kW and 352kW.
Max. PV input voltage Max. PV input current

350kW PV Inverter

SP-350K-H1-String Inverter- Sineng Electric

- Up to 24 (28/32 optional) PV strings · Support aluminum cable access, saving cable costs · Support PLC communication, save communication cable

- Efficient Higher Revenue**
 - Max. Efficiency 97.5%
 - Max. PV Input Voltage 600V
 - 150% Peak Output Power
 - 2 MPPT Trackers, 150% DC Input Oversizing
 - Max. PV Input Current 15A, Compatible with High Power Modules
- Intelligent Simple O&M**
 - IP66 Protection Degree: support outdoor installation
 - Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
 - DC & AC Type II SPDs: prevent lightning damage
 - Battery Reverse Connection Protection
- Flexible Abundant Configuration**
 - Plug & Play, ETS Switching Under 10ms
 - Compatible with Lead-acid and Lithium Batteries
 - Max. 6 Units Inverters Parallel
 - AFCD Function (Optional): when an arc fault is detected the inverter immediately stops operation
