8 4v lithium battery pack with side charge

Overview

Can I use a 4.2V charger for a lithium ion battery?

The good news is that nearly all batteries you will encounter are going to be 4.2V. And you can use a 4.2V charger for both lithium ion and lithium ion polymer. If you ever encounter a 4.35V battery, you can always use a 4.2V charger: it'll charge it up to 4.2V which is perfectly safe. We carry two chargers in our store (at this time).

What is the nominal voltage of a 2s4p battery pack?

This battery pack with nominal voltage 7.4v. And when it is fully charged, the voltages goes up to 8.4v. Also, the battery charger for this pack should be 8.4v as well. This 8.8ah 7.4v battery pack made by 2S4P 18650 rechargeable li-ion battery cells. With built in BMS protections.

What is the charging voltage of 8800mAh lithium ion battery pack?

The 7.4v 8800mah li ion battery pack apply with high-quality 2s Lithium ion battery cells, Battery pack with PCM/BMS protections. The charging voltage is 8.4 volt. Can be install to any small applications. When you place order, you can contact with our sales to get required capacity. 8000mah, 8800mah and 10000mah all available.

What is a lithium ion battery charger?

Lithium-Ion Battery Chargers for OEMs, engineers, hobbyists and consumers. This battery charger is a microprocessor controlled unit designed exclusively for charging 2 cell 7.2 V or 7.4 V. Lithium-ion and lithium polymer (lipo, li-po, Li-poly) battery packs. It has LED indicators to indicate the current operating mode of the charger.

What are the advantages of 8AH 7.4 volt battery pack?

8ah 7.4 volt battery pack Provide long storage life with few limiting conditions. It offers problem-free charge after long storage, permitting to use in a wide

range of applications. Overcharge protection: When the battery is under the charging state, the voltage keeps going up.

Can CMX supply 8800mAh battery pack for OEM order?

CMX factory supply this 8800mah battery pack for OEM order in bulk quantity. Welcome send your design for quotation. The 7.4v 8800mah li ion battery pack apply with high-quality 2s Lithium ion battery cells, Battery pack with PCM/BMS protections. The charging voltage is 8.4 volt. Can be install to any small applications.
