

SolarInvert Energy Solutions

Andorra power generation and energy storage companies

Overview

What are the 10 energy communities in Andorra?

This is another step towards the digitalisation of the area surrounding Andorra together with the development of 10 energy communities. These are Andorra, Híjar, Albalate del Arzobispo, Puebla de Híjar, Jatiel, Castelnou, Ejulve, Molinos, Alacón and Alcorisa.

How will Andorra become a green country?

Andorra will go from producing energy using coal, to generating clean energy with an installed capacity of 1,843.6 MW as a result of 7 hybridised renewable projects, 2 storage projects with batteries, a green hydrogen project and a synchronous compensator.

What is the future of Andorra?

In the area around Andorra there will not only be industrial and rural activity, there is also a future project featuring the promotion of local commerce and tourism. Endesa was also looking to promote the tertiary sector as it is a key factor with regard to economic activity and employment in the area.

What is Endesa doing in Andorra?

Industrial development is also one of the key factors in Endesa's project. Companies such as Soltec, Pretersa, and Capillar IT SL, as well as H2B2, and institutions such as the Hydrogen Foundation in Aragón are collaborating with the company's commitment to the future of Andorra.

Where will agrovoltaic activities take place in Andorra?

There will also be agrovoltaic activity in the parks of Calanda, Santa María (in the municipality of Samper de Calanda) and San Macario (in the municipality of Andorra), which will enjoy the collaboration of Cierpe for the cultivation of cereals, and Natur Nature for aromatics.

What is a rural promotion project in Andorra?

A rural promotion project was also developed, with a leading role played by entities such as Apicultura La Cerrada and its Museum of Beekeeping in Andorra, with the involvement of the Hotel Santa Bárbara and the Arkha rural accommodation, consisting of the promotion of sustainable tourism initiatives.
