

SolarInvert Energy Solutions

Armored Outdoor Power Supply

Overview

Are armorlogix power stations solar powered?

Because ArmorLogix is a platform based company, the possibilities are literally endless – create your own solution using either an Armorlogix weatherproof enclosure, or a power station, such as an ArmorLogix mobile solar cart or trailer, or other solar powered solutions. ArmorLogix's Power Stations are mobile or fixed, grid or solar powered.

What are armorlogix weatherproof enclosures?

ArmorLogix custom builds weatherproof enclosures for multiple railroad lines around the US to monitor and track data at railroad stations, crossings, and more. Our NEMA3 vented and NEMA4 non-vented weatherproof enclosures are constructed of 5052 marine grade aluminum, and come with a sunshade, adjustable back plate, secure cam lock, and more.

Are armorlogix enclosures rust resistant?

ArmorLogix offers both NEMA3 vented and NEMA4 non-vented enclosures manufactured from 5052 Marine Grade aluminum, which is rust resistant and anti-corrosive. Each enclosure comes standard with a sunshade, lock, and adjustable or removable back-plate for mounting equipment to.

Where can armorlogix be used?

ArmorLogix's entire product line can be installed or deployed at oil & gas fields, or at mining operations. The heavy duty marine grade 5052 aluminum weatherproof enclosures can house wireless relays, surveillance recorders and cameras, sensitive air sampling equipment, and other infrastructure or electronic equipment.

Why should you choose armorlogix?

Our flexibility ensures your platform has no boundaries. ArmorLogix got its start as a manufacturer of NEMA 3 and NEMA 4 weatherproof enclosures,

constructed of Marine Grade 5052 aluminum. This naturally thermally conductive material is both lighter weight than traditional steel enclosures, and is rust and corrosion resistant.
