

SolarInvert Energy Solutions

Athens lithium battery pack

Overview

Where are lithium ion batteries made?

There will also be further expansion of the assembly plants in Verona, Italy and North Carolina, United States. The €20m for lithium-ion batteries will also see an assembly line for prototyping and R&D purposes alongside the three production lines for off-road mobility, industrial use, and Energy Storage for renewables.

How much money does sunlight get for a lithium-ion battery project?

Image: SUNLIGHT. A €105 million (US\$127.6 million) push to develop low-cost, environmentally-friendly lithium-ion battery technology by Sunlight, a designer and manufacturer of batteries headquartered in Greece, will receive €49.9 million in grant funding.

What's new at Sunlight's Xanthi battery plant?

Specialist battery company Sunlight, a member of Olympia Group, will significantly increase manufacturing capacity and create new jobs at its state-of-the-art plant in Xanthi, northern Greece, following a €25 million, 10-year loan from the European Investment Bank (EIB) which was confirmed earlier in Athens today.

What will sunlight's lithium battery technology be used for?

A company spokesperson told Energy-Storage.news today that Sunlight wants the lithium battery technologies it develops to play a key role in areas including automated guided vehicles, electric buses and shipping, as well as in “smart storage systems for renewable energy sources”.

Who is sunlight lithium?

With more than 12 years of experience in lithium and a top R&D team, Sunlight entered the lithium market with Li.ON FORCE, the first line of “smart” lithium batteries for electrical Industrial Vehicles (eIVs).
