Austria Energy Storage Power Station Procurement Project

Overview

How big is Austria's hydraulic storage power plant capacity?

In 2020, Austria had a hystorically grown inventory of hydraulic storage power plants with a gross maximum capacity of 8.8 GW and gross electricity generation of 14.7 TWh. This storage capacity has already played a central role in the past in optimising power plant deployment and grid regulation.

Who is building Ebensee pumped storage power plant?

Vienna, 24.10.2023 – PORR has been charged with building the Ebensee pumped storage power plant for Energie AG Oberösterreich – a complex undertaking for which the construction company is delivering its bundled expertise. PORR's contract for the power plant is worth approximately EUR 167m and trial operations are set to begin in late 2027.

How much does a photovoltaic battery storage system cost in Austria?

The total inventory of photovoltaic battery storage systems in Austria therefore rose to 11,908 storage systems with a cumulative usable storage capacity of approx. 121 MWh. For 2020, a price of around € 914 per kWh of usable storage capacity excl. VAT was charged for PV storage systems installed as turnkey solutions.

Does Austria have a market for energy storage technologies?

A study 1 carried out by the University of Applied Sciences Technikum Wien, AEE INTEC, BEST and ENFOS presents the market development of energy storage technologies in Austria for the first time.

Where is Porr building pumped storage power plants?

Here PORR is applying its extensive experience in building pumped storage power plants. In addition to the Ebensee project, PORR is also currently constructing the caverns and galleries for the Limberg III pumped storage power plant in Salzburg, Rodund in Vorarlberg, both in Austria, as well as

Forbach in Germany. Spectacular work steps.

Who supplies electromechanical equipment for Ebensee pumped storage power plant?

International technology group ANDRITZ, a leading company in the field of energy and environmental technologies, has received an order from the Upper Austrian utility Energie AG to supply the electromechanical equipment for the new Ebensee pumped storage power plant.
