

## **SolarInvert Energy Solutions**

# Austria household energy storage lithium battery

#### **Overview**

#### What is a household battery?

The "Household Batteries" segment includes the battery business of end customers, including household batteries, accumulators, chargers, portable power supplies (mobile power supplies) and lights, as well as energy storage devices. Main products: micro battery, household battery, energy storage system, etc.

Why is household energy storage system important?

With the rapid development of renewable energy, household energy storage system is becoming an important part of household energy storage system management.

What are the main products of a battery company?

The main products include batteries, inverters, battery chargers, solar panels and other battery and solar cell monitoring solutions. The company is mainly engaged in automobile, industrial, residential, shipbuilding and other fields.

How will the demand for electricity storage evolve in 2050?

With the study "Stromspeicher 2050" by Vienna University of Technology on behalf of the Climate & Energy Fund, a first-ever analysis was performed of how the demand for electricity storage will develop in the Austrian and German electricity system up to 2030 and 2050 as the share of renewables in power generation increases.
