

SolarInvert Energy Solutions

BESS photovoltaic folding container wholesale in Manchester UK

Overview

Who is battery energy storage systems (Bess)?

We are a start-up organisation specialising in importing and distributing Battery Energy Storage Systems (BESS) to the UK market. Our primary focus is to serve installers, wholesalers, and Engineering, Procurement, and Construction (EPC) companies.

What is a Bess battery system?

BESS (battery energy storage system) or battery containers are most commonly built using converted shipping containers. Primarily used to store power generated by renewable energy sources such wind and solar, BESS battery systems are key to global carbon reduction.

What is a Bess container?

BESS containers are more than just energy storage solutions, they are integral components for efficient, reliable, and sustainable energy management. BESS containers are designed for safety and scalability. Their ability to be stacked and combined allows for customization according to project size.

Who is Bess?

Request a free consultation today. UK-Based Distributor of Battery Energy Storage Systems Supplying Installers, Wholesalers and EPC companies in the Residential, Commercial and Industrial Sectors Learn More Who We Are We are a start-up organisation specialising in importing and distributing Battery Energy Storage Systems (BESS) to the UK market.

What is Bess & how does it work?

When combined with on-site wind or solar power plants, BESS maximize the value of electricity produced from renewable sources, helping to reduce energy costs at the wholesale level and reflecting these savings on electricity bills.

What makes a Bess enclosure eco-friendly?

The BESS enclosure range includes eco-friendly materials and sustainable design practices. Using recyclable materials and energy-efficient construction methods aligns with the broader goal of promoting greener energy sources. The Eldapoint Group is the preferred choice for customers in the renewable energy sector.
