Base station communication equipment supplier ranking

Overview

What are the top 3 base station equipment providers in the world?

The top three base station equipment providers are China-based Huawei with the share accounting for 30%, Sweden-based Ericsson with 23% shared and the third one is Finland-based Nokia with 20% market shares. The noticeable point is amid US sanctions, Huawei still leads the global market share and continues its leadership.

What is the market share of base station equipment suppliers?

A world-leading market intelligence provider – TrendForce released the global market share analysis report of suppliers of base station equipment. The report discloses that more than 70% of the market is covered by Chinese and European suppliers.

Who owns the base station equipment market?

The report discloses that more than 70% of the market is covered by Chinese and European suppliers. The top three base station equipment providers are China-based Huawei with the share accounting for 30%, Sweden-based Ericsson with 23% shared and the third one is Finland-based Nokia with 20% market shares.

Which 5G base station supplier has received the first overseas orders?

On the other hand, Japanese supplier NEC has received its first ever overseas orders this year, from British mobile network Vodafone. Japan-based Fujitsu, likewise, has also been chosen by the British government as an alternative supplier of 5G base station equipment in place of Huawei.

Does Samsung supply base station components?

Not only is Samsung supplying base station components to the three largest mobile network operators in Korea, but it is also collaborating with operators in the US (including AT&T, Sprint, and Verizon) while having established

supply agreements with NTT DoCoMo in Japan.

How many 5G base stations are there in China?

As of July 2021, the three largest mobile network operators in China, including China Mobile, China Unicom, and China Telecom, have established 916,000 5G base stations domestically, which comprise 70% of the global total.
