Base station power cabinet installation specifications

Overview

Which bts3900 cabinets house indoor macro base stations?

BTS3900 or BTS3900 (Ver.C) cabinets house indoor macro base stations because these cabinets have a large capacity and a small size, support multimode applications, and are easy to expand the capacities of. BTS3900 cabinets support -48 V DC, +24 V DC, and AC power input while BTS3900 (Ver.C) cabinets support -48 V DC and AC power input.

What are the basic modules of a 3900 series base station?

The basic modules of a 3900 series base station are the baseband unit (BBU), radio frequency units (RFUs), and remote radio units (RRUs). The BBU uses common public radio interfaces (CPRIs) and electrical or optical cables to communicate with the RFUs or RRUs. and maintenance, signaling processing, and the system clock.

How is a 3900 base station managed?

3900 series base stations are managed by an O&M system using either MML commands or a graphical user interface (GUI). This system is hardware-independent and provides comprehensive functions to meet users' various O&M requirements. Figure 3-1 shows the O&M system structure. Figure 3-1 O&M system structure GBTS SMT: locally manages one GBTS.

Can bbu3900 be installed inside a power cabinet?

RFUs. If a 110 V AC or 220 V AC power supply is applied, an APM30H or APM30H (Ver.C) power cabinet is used and the BBU3900 can be installed inside the power cabinet. If a -48 V DC power supply is applied, a TMC11H or TMC11H (Ver.C) transmission cabinet is used and the BBU3900 can be installed inside the transmission cabinet.

What are the RF modules for distributed base stations?

The RF modules for distributed base stations in this document include RRUs

and AAUs. The application scenarios, power distribution schemes, cable connections, and cable installation of the RRUs and AAUs are the same. The following uses the RRUs as an example. The exteriors of components or cables in this document are for reference only.

What is a bts3900 cabinet?

For the specifications and parameters of each type of RRU, see the description of the RRU in question. BTS3900 or BTS3900 (Ver.C) cabinets house indoor macro base stations because these cabinets have a large capacity and a small size, support multi-mode applications, and are easy to expand the capacities of.
