### **Belgian lithium-ion energy storage battery application**

#### **Overview**

Will a 10MW / 20mwh battery energy storage system be built in Belgium?

Image: Fluence. A 10MW / 20MWh battery energy storage project in Belgium has achieved financial close and is expected to begin construction shortly, the consortium behind the project has said. The lithium-ion battery energy storage system (BESS) will be built in the town of Bastogne in Belgium's southern Wallonia region.

How many MW of battery energy storage system Engie reaches in Europe?

With this new project, ENGIE reaches 500 MW of BESS capacity in Europe, either installed, under construction or at an advanced stage of development. On 31 October 2024, Belgian grid operator Elia announced the result of the country's 4th CRM auction and the selection of ENGIE's Battery Energy Storage System (BESS) project in Kallo.

What is Saft's largest battery installation in Europe?

total energy storage capacity of 130 MWh, this project will be the Company's largest battery installation in Europe. The batteries, 40 Intensium Max High Energy lithium-ion containers, will be supplied by Saft, the battery subsidiary by the end of 2024, will help meet the needs of the European and Belgian high-voltage transmission network 2.

What is a battery storage project?

Positioned near an Elia high-voltage substation, this project marks a key milestone in Belgium's energy transition and electricity storage infrastructure development. Battery storage projects address the increasing flexibility demands driven by renewable energy development.

What is the largest energy storage project in Europe?

A first flagship energy storage project in Belgium After commissioning four battery parks in France offering total energy storage capacity of 130 MWh,

this project will be the Company's largest battery installation in Europe.

Is Belgium a potential market for energy storage?

In a June interview with Energy-Storage.news, Belgium was identified as one of Europe's most attractive potential markets for energy storage, according to Michael Salomon, CEO of energy storage consultancy firm Clean Horizon. The Estor-Lux 10MW / 20MWh system is thought to be the largest in the country.
