Botswana Gigawatt-scale Solar Park

Overview

Will a 100 MW solar plant be built in Botswana?

State-owned Botswana Power Corp. has signed a power purchase agreement with a consortium of Chinese enterprises and other companies to construct a 100 MW solar plant in southern Botswana. The project is expected to start generation by the end of 2025.

Where is the largest solar project in Botswana?

“As we reach another milestone in our renewable energy journey in Botswana, we are now looking forward to starting construction of the largest solar project in the country,” said Scatec CEO Terje Pilskog. The plant will be located near Mmadinare, close to the former mining town of Selebi-Phikwe, 400 kilometres north-east of the capital Gaborone.

How will a solar power plant benefit Botswana?

The solar power plant will ensure that approximately 48,000 tons of CO2 emissions will be avoided and power approximately 20,000 households annually. Botswana has launched its first utility scale grid connected solar project which is expected to help meet the country's electricity demand.

Will a solar project help Botswana meet its electricity demand?

Botswana has launched its first utility scale grid-connected solar project which is expected to help the country meet its electricity demand. Botswana President Dr Mokgweetsi Masisi at the launch of the first phase of the solar project. Image Source: Botswana Power Corporation (BPC)/X.

Will China's solar project influence Botswana's energy landscape?

The project is likely to attract significant attention from both domestic and international stakeholders, given its potential to influence Botswana's energy landscape for years to come. A Chinese consortium, led by China Harbour Engineering Company, has secured a contract to build a 100-megawatt solar

power plant in Botswana.

When will Mmadinare 100MW solar project be delivered in Botswana?

Image Source: Botswana Power Corporation (BPC)/X. Botswana has launched the first phase of a solar project expected to be delivered by next year. Last week, Botswana President Dr Mokgweetsi Masisi, launched the construction work of Phase 1 of the Mmadinare 100MW Solar Cluster.
