Construction of St George Energy Storage Project

Overview

What is Tesla's first energy storage facility outside the US?

First Energy Storage Facility Outside the U.S. The Shanghai Megafactory will mark a pivotal step for Tesla as its first energy storage production site outside of the United States. This venture highlights the company's strategy to extend its influence and capabilities beyond traditional automotive manufacturing.

Why is Tesla launching a new energy storage facility in Q1 2025?

This venture highlights the company's strategy to extend its influence and capabilities beyond traditional automotive manufacturing. Anticipated to begin operations in Q1 2025, this facility will reinforce Tesla's role in the global energy storage market.

What energy storage products does Tesla make?

Tesla's energy storage products include the Powerwall, Powerpack, and Megapack. The Shanghai Megafactory primarily produces the Megapack, an ultra-large commercial energy storage battery, for the global market.
