Croatia lithium power energy storage project

Overview

IE Energy, a Croatia -based energy storage operator, is set to build a 50 MW storage project, after securing €19.8 million from the Croatian government via state aid from the European Commission.Will Croatia build Europe's largest energy storage project?

Croatia is preparing to build Eastern Europe's largest energy storage project. IE Energy has secured €19.8 million (\$20.9 million) to develop a 50 MW storage system, potentially extendable to 110 MW by 2024.

Did Croatia get the green light for IE-energy's massive energy storage project?

Croatia got the green light from Brussels for a EUR 19.8 million grant to IE-Energy for a massive energy storage project.

Is Croatia ready for solar energy storage?

"There is immense scope for energy storage in Croatia, predominantly for battery storage." GlobalData says that Croatia is now on target to meet its 36.4% renewable energy target by 2030. However, its recent investment in energy storage has not been accompanied by rapid solar PV development.

Will ie-energy be the biggest energy storage project in southeastern Europe?

Croatia got the green light from Brussels to give a EUR 19.8 million grant to a domestic startup for a massive energy storage project. IE-Energy is planning to build a battery system of 50 MW, which means it would be the biggest in Southeastern Europe.

Is there a storage facility in southeastern Europe?

There is no storage facility in southeastern Europe yet with such a capacity," Attaurrahman Ojindaram Saibasan, a power analyst at GlobalData, told pv magazine. "There is immense scope for energy storage in Croatia, predominantly for battery storage." GlobalData says that Croatia is now on target to meet its 36.4% renewable energy target by 2030.

Will ie-energy accelerate the decarbonization of Croatia's energy sector?

In addition, it will accelerate the decarbonization of the Croatian energy sector, according to the announcement. IE-Energy is based in Rijeka, Croatia's fourth-largest city. It joined the intraday and day-ahead markets at the Croatian Power Exchange (CROPEX) last year. Documents reveal the project is scheduled to start on December 1.
