# Distribution of new energy base stations in Iran

#### **Overview**

Does Iran have a nuclear power plant?

(Updated 2020) PREAMBLE The Islamic Republic of Iran has one operating nuclear power reactor, Bushehr Nuclear Power Plant (BNPP), Unit 1, where a total of 42 199 million kW.h electricity has been generated from March 2011 to March 2020. BNPP-1 provided 1.84% of national electricity production in 2019.

How has Iran's energy sector changed over the last two years?

Iran's power sector emissions have tripled in the last two decades due to rapidly growing power demand which was largely met by an increase in gas generation. Explore the latest data on Iran's energy transition. How clean is Iran's electricity?

.

What percentage of Iran's electricity comes from low-carbon sources?

8% of Iran's electricity was generated from low-carbon sources in 2024, below the global average of 41%. It was the 12th largest country by electricity demand. Iran's largest source of clean electricity is hydro (6%). Its share of wind and solar (0.5%) is well below the global average (15%).

What is Iran's main source of electricity?

Iran's largest source of clean electricity is hydro (6%). Its share of wind and solar (0.5%) is well below the global average (15%). Iran relied on fossil fuels for 92% of its electricity in 2024. Its emissions per capita were above the global average.

Does Iran rely on fossil fuels?

Iran relied on fossil fuels for 92% of its electricity in 2024. Its emissions per capita were above the global average. Iran's power sector emissions have

tripled in the last two decades due to rapidly growing power demand which was largely met by an increase in gas generation.

Who are the subsidiary companies in Iran?

At the operational level are subsidiary companies, including: regional electric companies, power distribution companies, power generation management companies, Iran Grid Management Company (IGMC), Iran Power Plant Project Management Company (MAPNA) and Renewable Energy and Energy Efficiency Organization (SATBA).
