# Electric Energy Storage Trailer

## Overview

---

What is a powered E-Trailer?

SolarEdge e-Mobility has developed the Powered e-trailer to answer our customers' electrification challenges. It harvests free-of-charge solar and recuperation energy and uses it to support the towing vehicle or refrigeration unit. Consequently, saving fuel and avoiding emissions. Our electric kit can be added to new and used trailers.

What is itrailer - the future of mobile EV battery charger?

Energize your world with the iTrailer - the future of mobile EV battery charger. iTrailer Mobile Energy Storage Charging Station, With 200 kWh of storage and 180 kW charging power, iTrailer is versatile for stationary, towed, or in-vehicle use. It serves as a charger for electric vehicles, an emergency power source, and a backup power supply.

How many battery storage projects does power Edison have?

Power Edison has a development and sales pipeline of over 1GWh of battery storage projects. Power Edison, the leading developer and provider of utility-scale mobile energy storage solutions, has been contracted by a major U.S. utility to deliver the system this year.

Does Power Edison sell or lease batteries?

Power Edison leases its batteries, as part of its strategy, rather than selling them. The Green Brook, New Jersey, company was founded by Shihab Kuran, who also worked at NRG Energy and SunEdison.
