# **Energy storage battery PACK**high voltage box

#### **Overview**

What are energy storage lithium battery packs?

Energy storage lithium battery packs are based on lithium iron phosphate batteries. They are a lithium battery system designed in series with modules, featuring a reliable BMS system and high-performance equalization technology to improve overall safety and service life.

What is a heavy duty battery box?

Massive Winter Clearance. Up to 50% OFF The Heavy Duty Battery Box by hardkorr allows you to turn a regular deep-cycle battery into a convenient portable power station. Create a dual-battery setup using the optional VSR. It is suitable for all deep-cycle batteries up to 330mm (I) x 180mm (w) x 240mm (h) in size.

What is a battery-box premium LVS?

One Battery-Box Premium LVS is a lithium iron phosphate (LFP) battery pack for use with an external inverter. A Battery-Box Premium LVS contains between 1 to 6 battery modules LVS stacked in parallel and can reach 4 to 24 kWh usable capacity. Connect up to 16 Battery-Box LVS 16.0 in parallel for a maximum size of 256 kWh.

How safe is the battery-box?

The Battery-Box meets the highest safety standards like VDE 2510-50 (HVS/HVM/LVS) and receives many awards and seals. In the independent Energy Storage Inspection of the university HTW Berlin, the Battery-Box is ranked as the battery with the highest efficiency on the market. Battery-Box Premium HVS.

What is a battery-box premium HVS?

One Battery-Box Premium HVS is composed of 2 to 5 HVS battery modules that are connected in series to achieve a usable capacity of 5.1 to 12.8 kWh.

Additionally, direct parallel connection of up to 3 identical Battery-Box Premium HVS allows a maximum capacity of 38.4 kWh. Ability to scale by adding HVS modules or parallel HVS stacks later.

How big can the battery-box premium LVL be?

Thanks to its control and communication port (BMU), the Battery-Box Premium LVL scales to meet the project requirements, no matter how large they may be. Start with Battery-Box Premium LVL15.4 (15.4 kWh) and extend anytime to 983 kWh using parallel interconnection of up to 64 batteries.
