

SolarInvert Energy Solutions

Energy storage power station manufacturer in Manchester UK

Overview

Who owns Carlton power's 'Carrington storage' project in Greater Manchester?

UK-based developer Statera Energy has acquired a 680 MW/1360 MWh battery energy storage project in Greater Manchester from Carlton Power. Located at Trafford Low Carbon Energy Park, Carrington Storage is expected to become one of the largest of its kind in Europe once fully energised in 2026.

Will a UK battery energy storage project come online next year?

One of UK's largest battery energy storage projects has changed hands and will come online next year as part of a low carbon energy park in Greater Manchester. UK-based developer Statera Energy has acquired a 680 MW/1360 MWh battery energy storage project in Greater Manchester from Carlton Power.

Is Manchester energy planning a large-scale 5mw/15mwh project?

The company has had a smaller-scale 5MW/15MWh project operational, also in Manchester, since 2018. It first revealed plans for a large-scale project in Carrington in 2019 which the then-CEO told Energy-Storage.news would start construction the following year.

What is statera's new battery storage project?

This battery project secured debt financing in November 2024 and only a month later a ten-year voltage services contract in a tender run by the National Energy System Operator (NESO). Statera's latest project has already been approved by Trafford Council and is its largest consented battery storage project to date.

What is statera's biggest consented battery storage project?

Statera's latest project has already been approved by Trafford Council and is its largest consented battery storage project to date. The company was founded in 2016 and has over 1 GW of UK projects operational or in

construction, and as of the latest announcement – a consented battery storage pipeline of 1370 MW.

Will statera energy develop Trafford low carbon energy park?

Keith Clarke, Carlton Power’s CEO, said: “Our agreement with Statera Energy is a further step in the development of the Trafford Low Carbon Energy Park.
