### **European Union energy storage battery mainstream companies**

#### **Overview**

Why is energy storage important in Europe?

In Europe, there is a growing consensus amongst policymakers that energy storage is crucial to securing affordable and low carbon energy. In May 2022, European Union launched their REPowerEU plan, a part of the European Green Deal, which mandates that 45% of Europe's energy generation needs to come from renewable sources by 2030.

Why is battery production important for the EU?

Batteries, widely used in the transport and energy sectors, are central to the global energy system. They will be key to the EU's clean energy transition, industrial future and strategic autonomy. Boosting the industrial base for battery production is therefore a key task for the EU.

Will batteries be able to meet energy demand in the EU?

As regards batteries for stationary energy storage in the EU (for energy grid or home storage), despite steady growth, their roll-out should accelerate to meet the forecast demand of 200 gigawatts (GW) by 2030. a total of 30 gigafactory projects had been announced, with the potential to achieve a combined capacity of 1.3 TWh by 2030.

Who makes the best battery energy storage system?

As the top battery energy storage system manufacturer, The company is renowned for its comprehensive energy solutions, supported by advanced industrial facilities in Shenzhen, Heyuan, and Hefei. Grevault, a subsidiary of Huntkey, is a leader in the battery energy storage sector.

How does the EU operate in the battery sector?

The EU has long recognised batteries as a strategic technology. The EU operates in the battery sector primarily in three ways. Firstly, by providing strategic impetus within the sector, using its convening power to improve

cooperation among stakeholders and define an EU industrial strategy.

How can the EU make battery supply chains sustainable?

To make its battery supply chains secure, resilient and sustainable, the EU uses three approaches. First, it seeks to inject strategic impetus into the sector, using its convening power to improve cooperation among stakeholders. Second, it is working on a comprehensive regulatory framework. Third, it provides the sector with funding.
