# **Fangda Photovoltaic Curtain Wall**

## Overview

---

Who is Fangda group?

Fangda group's smart curtain wall and new material industry takes intelligence, low carbon, environmental protection and sustainability as the development direction, leading the development of China's curtain wall and new material industry. The company has strong R & D strength and advanced PVDF aluminum veneer production and manufacturing base.

What is photovoltaic curtain wall?

Introduction: Photovoltaic Curtain Wall refers to a new type of building exterior wall system that combines solar photovoltaic power generation technology with building curtain walls.

What is Fangda city?

The "Fangda City" project in Shenzhen built by Fangda group takes the R & D headquarters gathering area of high-tech industries and high-end emerging industries as the core function, integrates ecological office and characteristic commerce, and has a total construction area of about 330000 square meters.

What is harmonyfab's photovoltaic curtain wall?

Products Features Harmonyfab's photovoltaic curtain wall has a fashionable appearance and customizable colors, which can meet various design requirements and add a touch of brightness to green and environmentally friendly living. Introduction:

How many people use Fangda PSD system in 2022?

By 2022, Fangda PSD system has been applied in rail transit in 48 cities around the world, and more than 10 million people use Fangda PSD system every day.

How does a solar curtain wall work?

This system integrates photovoltaic components (such as solar panels) into the building curtain wall so that the curtain wall not only has traditional enclosure, decoration, and insulation functions but also can convert solar energy into electrical energy, providing green and clean energy for the building. Features 1.
