Georgia Energy Storage System

Overview

Georgia Power, the largest electric subsidiary of Southern Company, announced that construction is underway on 765-MW of new battery energy storage systems (BESS) located across Georgia in Bibb, Lowndes, Floyd, and Cherokee counties. Who sanctioned battery energy storage systems in Georgia?

The systems are sanctioned by the Georgia Public Service Commission through the Integrated Resource Plan. Credit: Georgia Power. US-based electric utility Georgia Power has commenced construction of new battery energy storage systems (BESS) across the state of Georgia, totalling 765MW capacity.

Will Georgia Power offer more battery energy storage projects?

In that filing, Georgia Power signaled its intention to solicit bids for more storage- another 500 MW- in the near future. Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent report.

How many battery energy storage sites will Georgia Power have in 2026?

Georgia Power has applied for certification of four battery energy storage sites totaling 500 MW expected to come online in 2026. In a continued effort to limit its use of fossil fuels to mitigate peaks, Georgia Power Company is adding a whole mess of new BESS.

What is the Georgia Power Company Integrated Resource Plan Update 2023?

Earlier this month, Georgia Power Company submitted its 2023 Integrated Resource Plan Update (2023 IRP Update) to the Georgia Public Service Commission, which includes an Application for Certification for four battery energy storage systems totaling 500 MW.

What does Georgia Power do?

Georgia Power senior vice-president and senior production officer Rick Anderson said: “At Georgia Power, we work with the Georgia PSC and many other stakeholders to make the investments required for a reliable and resilient power grid, integrating new technologies to better serve our customers today and as Georgia grows.

Does Georgia Power have a Bess project?

Georgia Power is also collaborating with the Georgia PSC to procure an additional 1GW of BESS capacity through competitive bidding and is developing a 13MW demonstration project at Fort Stewart army installation near Savannah, Georgia.
