

#### **SolarInvert Energy Solutions**

# High growth of photovoltaic micro inverters

#### **Overview**

The Solar Micro Inverter Market is estimated to be valued at USD 38.54 Bn in 2025 and is expected to reach USD 137.37 Bn by 2032, growing at a compound annual growth rate (CAGR) of 19.9% from 2025 to 2032. Why is the micro inverter market growing?

The market is experiencing steady growth, driven by the rising adoption of rooftop solar systems and the increasing emphasis on maximizing energy efficiency. North America held the largest revenue share of 37.74% in the global micro inverter market. The micro inverter market in the U.S. is experiencing strong momentum.

How big is the PV micro inverters market?

The market is projected to surpass USD 5,965.489 Million by 2035, growing at a CAGR of 14.8% during the forecast period. Explore FMI! North America controls the PV micro inverters market and is driven by powerful Government policies taking to renewable energy adoption as well as expanding residential and commercial solar projects of scale.

What is the global micro inverter market size?

The global micro inverter market size was estimated at USD 4.67 billion in 2024 and is projected to reach USD 17.34 billion by 2030, at a CAGR of 24.58% from 2025 to 2030. The market is experiencing steady growth, driven by the rising adoption of rooftop solar systems and the increasing emphasis on maximizing energy efficiency.

What is the growth rate of micro inverter market in 2024?

The micro inverter market in the U.S. is experiencing strong momentum. By type, single-phase segment held the largest market revenue share of over 73.98% in 2024. By application, residential segment held the largest market revenue share of over 79.34% in 2024.

What is the UK's PV micro inverters market?

The United Kingdom's PV Micro Inverters Market is on the up there with its firm stance on low emissions of carbon and support for solar energy. Residential and commercial solar panel installations are fueled by government targets that are ultimately net zero-and further strengthened with programs like feed-in tariffs.

Who are the leading companies in the micro inverter market?

Some key players operating in the market are Enphase, Darfon Electronics Corporation, Deye Inverter, Sparq Systems, Fimer Group, Solis Solar, Tata Power Solar, and others. The following are the leading companies in the micro inverter market. These companies collectively hold the largest market share and dictate industry trends.

#### High growth of photovoltaic micro inverters

### **PV Inverter Market Size, Share & Industry ...**

Even though string inverters experienced robust growth in North America, central PV inverters are expected to maintain the highest market share throughout the ...
