

## SolarInvert Energy Solutions

# High quality lfp powerstation in Senegal

## Overview

---

What is Senegal's 125 MW coal-fired power station?

Senegal's Sendou coal-fired power station, with a capacity of 125 MW, has surpassed heavy fuel oil generators as the country's most cost-effective source of baseload power. The project, which has been ongoing since 2007, is a regional success. It intends to enhance Senegal's power dependability and cost through a "Build, Own, and Operate" model.

Where is Senegal's Sendou power station?

Dakar, Senegal, 30 July, 2022 – Senegal's Sendou Power Station has achieved a significant milestone in its ongoing rehabilitation and return to service after it recently produced a 100-megawatt load test during a sustained run at the coal-fired single unit power station that is located in Sendou, 35 kilometers south-east of Dakar.

Who owns Senegal's power?

Senelec owns 15%, while West African Energy controls the remaining 85%. The project, located near Dakar, will use indigenous gas, potentially reducing Senegal's power rates. Turbines are supplied by General Electric, while engineering and construction are handled by Calik Enerji. Sendou – 125 MW.

When will West African energy open a gas power station in Senegal?

West African Energy, a Senegalese energy company, plans to open Senegal's first and largest 300 MW combined cycle gas power station in January 2024.

Where is Tobene power located in Senegal?

Tobene – 115 MW Tobene Power is a large independent power generator in Senegal, with a 115 MW capacity, located 90 Km northeast of Dakar near Taiba Ndiaye. It contributes significantly to the country's power generation, accounting for around 10% of installed capacity and supplying over 2 million people.

What is Senegal's largest gas-to-power plant?

The project, which is scheduled to begin construction in 2024, will be Senegal's largest gas-to-power plant, producing 360 MW from natural gas supplies. It will also run on light crude oil as an alternative fuel.
