# How many communication base stations are there in Portugal with hybrid energy

#### **Overview**

How many base stations in Portugal have 5G?

Since the end of the first half of 2022, ANACOM has been reporting quarterly on progress in the implementation of these latest-generation mobile communications networks. At the end of 1st quarter 2024, according to information reported by operators, there were 9,999 base stations in Portugal with 5G technology.

What is the density of 5G base stations in Portugal?

At the end of 1st quarter 2024, the density of 5G base stations in Portugal was one base station per 10 km2 - on average, 97 5G base stations per 100,000 inhabitants.

Does Portugal have a 5G network?

Overall, while Portugal has made significant strides in deploying 5G networks, full-scale deployment of SA 5G is still a work in progress. The transition to SA 5G will likely accelerate in the coming years as operators continue to invest in the necessary infrastructure and technology.

Does Portugal have a good EV infrastructure?

Portugal has achieved strong electric vehicle (EV) adoption—approximately 25–32% new-car EV penetration by 2023—but infrastructure growth must accelerate to keep pace. Its interoperable, nationally unified public network (MOBI.E) supports 7,000–8,000 public charge points today, including ~37% DC units.

Can Chinese technology be used in 5G networks in Portugal?

Overall, the legal rules regarding use of Chinese technology in 5G networks in Portugal are designed to create a secure, competitive, and dynamic telecommunications market. By establishing clear guidelines and promoting fair competition, these rules aim to maximize the benefits of 5G technology

while safeguarding national security interests.

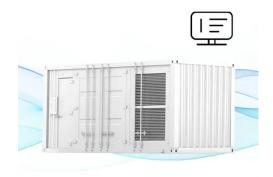

When will 5th generation mobile networks be available in Portugal?

The commercial offer associated with 5th generation mobile networks in Portugal was launched at the end of 2021 with the installation of the first base stations. Since the end of the first half of 2022, ANACOM has been reporting quarterly on progress in the implementation of these latest-generation mobile communications networks.
