How much does a solar panel system cost

Overview

The price of solar panels changes depending on where you live, but the average for installation is just under \$29,000 or \$2.75 per watt. How much does it cost to install solar panels?

While solar offers a great return on investment, it is a large ticket purchase that will require you to either have access to large sums of cash, or the ability to secure financing. \$30,000 depending on how many panels you require, while a heavy power consumer may spend upwards of \$50,000 for a larger installation.

Are solar panels cheaper?

Solar panels have become significantly cheaper in recent years, making them more accessible for people in remote areas. A new study has found we would only need 50% of the world's rooftops to be covered with solar panels to meet the world's yearly electricity needs.

How much does a solar system cost?

Mounts and racking typically represent around 10% of the total cost of an average solar system. For a \$10,000 solar system, the racking system would cost approximately \$1,000. Prices can vary based on racking type, equipment quantity, and installation labour costs.
