

SolarInvert Energy Solutions

Huawei Australia Power Storage

Overview

Which solar storage system should I use with a Huawei inverter?

The perfect solar storage solution to couple with any Huawei inverter, the Huawei LUNA is here. Built as an adaptable and modular storage system, the Huawei LUNA has the unique benefit of being able to scale to fit your home's energy needs.

Which battery should I use with a Huawei inverter?

Huawei batteries are the perfect choice to pair with any Huawei inverter. The Huawei LUNA battery stands out amongst its peers for its efficiency and optimal levels of production and power retention. If you are looking for a high-quality solar energy storage system, then it's just a fact that you should be considering Huawei.

Should you buy a Huawei Luna solar energy storage system?

If you are looking for a high-quality solar energy storage system, then it's just a fact that you should be considering Huawei. Huawei's history of excellence across a wide variety of different technological fields stands as a testament to their commitment to quality in all products they produce, and the Huawei LUNA is no exception.

How many kW can a Huawei Luna solar battery run?

With a maximum capacity of 15 kW and a minimum of 5 kW, the Huawei LUNA is well equipped to scale to whatever a home's needs may be. Add on to this the batteries 100% depth of discharge, and you can be confident that whatever system size you install, your Huawei solar battery will let you make the most of your solar energy.

Why should you buy a Huawei Luna?

Built as an adaptable and modular storage system, the Huawei LUNA has the unique benefit of being able to scale to fit your home's energy needs. Rather

than needing to buy additional batteries if you wish to increase your home's energy storage capacity, all you need to do is add an additional storage block to your Huawei LUNA.

What is a Huawei fusion solar inverter?

The Huawei FusionSolar range includes a variety of high-quality residential inverters in sizes ranging all the way from 3 kW up to 29.9 kW with many sizes in between. This means that whatever your home's unique energy needs may be, Huawei is sure to have an inverter suited to them.
