## Huawei Naypyidaw Energy Storage Project

### **Overview**

Who is responsible for Huawei energy storage system?

Among them, the ACWA Power will be responsible for the developer's part while Shandong Power will provide the EPC (Engineering, Procurement, and Construction) supplies. In July 2021, Huawei filed an energy storage system patent that was publicly shared on July 9th in China.

Is Huawei preparing for energy storage in 2021?

In July 2021, Huawei filed an energy storage system patent that was publicly shared on July 9th in China. This patent targets to normalize the hardware architecture and provides convenient maintenance with reduces costs. We can see the company has a long time preparation for the energy storage which is now gradually starting to implement in actual.

What is Huawei digital power?

Huawei Digital Power is dedicated to enhancing the safety and stability of renewable integration by combining digital and power electronics technologies, leveraging technical experience, and collaborating with global power companies, grid enterprises, and electricity providers.

What is the Red Sea New City Energy Storage Project?

Furthermore, the media reports reveal that the Red Sea New City Energy Storage Project is one of the major highlights of the "Vision 2030" blueprint drafted by Saudi Arabia. In addition, the city is situated near the coast of the Red Sea that provides a suitable geographical environment to extract electricity energy resources.
