Indonesia Energy Storage System Lithium Battery

Overview

Will PT Rept battero build a battery factory in Indonesia?

Image: REPT via LinkedIn Chinese battery manufacturer Rept Battero has announced plans to develop an 8GWh gigafactory in Indonesia specialising in lithium-ion cells for battery energy storage systems (BESS). Rept Battero's non-wholly-owned subsidiary, PT Rept Battero Indonesia, will invest in and construct the Indonesian Battery Factory.

Is battery storage taking off in Indonesia?

Despite the opportunities for manufacturing, from a deployment perspective, battery storage has not yet taken off in Indonesia beyond a handful of projects, including a 5MW pilot announced by the government in March 2022. Rept Battero has announced plans to develop an 8GWh gigafactory in Indonesia specialising in lithium-ion cells for BESS.

Why do Indonesian batteries need a battery energy storage system?

Batteries are required to provide constant electricity supply to renewable energy plants, which are primarily intermittent, such as solar and wind power plants. The agreement was made with other state-owned bodies, such as the Indonesian Battery Corporation, to build the Battery Energy Storage System by 2022.

Will China build a lithium-ion battery plant in Indonesia?

China's REPT Battero has revealed plans to build a lithium-ion battery plant in Indonesia, targeting 8 GWh of annual production capacity in the first phase. From ESS News Hong Kong-listed REPT Battero has announced plans to invest in a new battery production facility in Indonesia.

How EV batteries can be used in off-grid areas in Indonesia?

Using battery storage with solar PV can help off-grid regions reduce diesel use, lower emissions, and create a sustainable energy solution. The growing

adoption of electric vehicles (EVs) in Indonesia also further boosts the demand for BESS, which enhances EV charging infrastructure and repurposes EV batteries for secondary use.

Does Rept battero have a solar-plus-storage project in Indonesia?

This is the latest expansion of Rept Battero's presence within the Indonesian energy storage market. In 2023, Rept Battero signed a framework agreement with developer Vena Energy for a 2GW solar-plus-storage project that could feature as much as 8GWh of BESS.
