

SolarInvert Energy Solutions

Kingston Double Glass Photovoltaic Module Company

Overview

What is a double glass (Dual Glass) solar panel?

A double glass (Dual Glass) solar panel is a glass-glass module structure where a glass layer is used on the back of the modules instead of the traditional polymer backsheet. Double glass solar panels were originally heavy and expensive, but the lighter polymer backing panels gained most of the market share.

Why should you choose kibing group for Photovoltaic Glass production?

To meet the customized needs of customers, our company provides ultra-clear photovoltaic glass for BIPV and thin film modules With the high-quality silica sand mining bases in Hunan ,Yunnan and Malaysia, Kibing Group is providing a stable and reliable raw material guarantee for the glass production.

What are the benefits of double glazed solar panels?

Double-glazed solar panels, also known as dual glass solar panels, offer increased reliability, especially for large-scale photovoltaic projects. They provide better resistance to higher temperatures, humidity, and UV conditions and have better mechanical stability, which reduces the risk of microcracks during installation and operation.

What is a double glass module?

Double glass module: the front and back two pieces of glass + photovoltaic cells are compounded by encapsulation film. Traditional double glass module package: EVA+EVA, EVA+POE, POE+POE. Jiaxing Fuying double glass module package: PVB+PVB.

Are HJT solar panels bifacial?

The efficiency of HJT solar panels is higher due to their bifaciality, which is the highest on the market at 80-95%. This is compared to the average bifacial factor of PERC solar panels, which is 70%.

What is Jiaxing Fuying double glass module package?

Jiaxing Fuying double glass module package: PVB+PVB. The life cycle is longer, the warranty for ordinary modules is 25 years, and the warranty for double glass modules is 35 years. The attenuation is low, the attenuation of the traditional module is about 0.7%, and the double glass module is 0.5%.
