Kyrgyzstan energy storage charging station subsidies

Overview

Will Kyrgyzstan popularise electric vehicles?

According to the representative of the Union, there is a prospect for popularisation of electric vehicles among Kyrgyzstanis. The key factors contributing to it are state support, including tax benefits and subsidies for a purchase of electric vehicles, as well as the development of the charging station infrastructure.

Is Kyrgyzstan ready for electric cars?

"The country is starting to develop the infrastructure, including installation of charging stations in large cities," said Iskender Sharsheyev. According to the representative of the Union, there is a prospect for popularisation of electric vehicles among Kyrgyzstanis.

Which countries supply electric vehicles to Kyrgyzstan?

The main countries suppliers of electric vehicles to Kyrgyzstan are China, Japan and some European countries. China is a highly competitive supplier with competitive prices and a variety of models. "The country is starting to develop the infrastructure, including installation of charging stations in large cities," said Iskender Sharsheyev.

Are hybrid vehicles a solution to a shortage of electricity in Kyrgyzstan?

According to economist Marat Musuraliev, given the shortage of electricity in Kyrgyzstan, hybrid vehicles may become the most efficient solution to a problem of emission abatement in the environment from motor transport. The advantage of hybrid vehicles is that they may be fuelled with regular gasoline as well.

How much CO2 does Kyrgyzstan produce?

higher than the global average. The Kyrgyzstan energy sector contributes to roughly 60%, 9.1 MT of CO2, of its total GHG emissions, where the residential

energy consumption and the production of heat & electricity account for over 70.

Can Kyrgyzstan transition to electric vehicles?

According to experts, Kyrgyzstan may face some problems requiring urgent solution when transitioning to electric vehicles. The streets of Bishkek. Photo: CABAR.asia In 2021, Kyrgyzstan, as part of the Paris Agreement, submitted an updated nationally determined contribution – NDC.
