

SolarInvert Energy Solutions

London ups uninterruptible power supply manufacturer

Overview

Who makes uninterruptible power supplies?

Swiss made and designed Uninterruptible Power Supplies for the present and future of the most critical power applications. From Standalone PremiumTower10-60kW to the most advanced and highest availability modular solution CumulusPower. Centiel advanced technology takes availability to the next level.

Who are authorised ups service partners?

Our product portfolio is meticulously selected so the right continuity solutions can be designed, delivered, installed and maintained for each client's exact power protection requirements. We are authorised UPS service partners for Borri, Legrand, Huawei and CertaUPS.

Why should I use UPS systems?

UPS Systems provided a faultless service throughout the process of consulting, specifying and installing a new UPS. The information provided was clear, detailed and the installation was efficiently completed within the specified timeframe. I would not hesitate to use or recommend UPS Systems for future projects.

What's new with ups?

The solution proposed by UPS means that we can now remotely monitor each of our UPS that are dotted around our large and dispersed site, giving us total reassurance in the case of an emergency. - Nick Allin, Bournemouth University
I'd like to thank you team for all their efforts over the last two days to replace our two UPS systems.

Why should a retail business use UPS & generators?

Our range of UPS services and generators has long been trusted by the retail industry for their reliability and stability. We deliver a robust, hassle-free

solution to critical power supplies for all manner of retail businesses, large and small. Automated systems in manufacturing are more advanced than ever before.

What types of power supply systems are suitable for emergency lighting applications?

Affordable single and three-phase Uninterruptible Power Supply systems to support a variety of applications, ranging from 650VA to 1200kVA Static Inverter Systems designed specifically for emergency lighting applications according to European BS EN50171 specification
