

SolarInvert Energy Solutions

Maximum company value of micro inverter

Overview

What is the global micro inverter market size?

The global micro inverter market size was estimated at USD 4.67 billion in 2024 and is projected to reach USD 17.34 billion by 2030, at a CAGR of 24.58% from 2025 to 2030. The market is experiencing steady growth, driven by the rising adoption of rooftop solar systems and the increasing emphasis on maximizing energy efficiency.

Who are the leading companies in the micro inverter market?

Some key players operating in the market are Enphase, Darfon Electronics Corporation, Deye Inverter, Sparq Systems, Fimer Group, Solis Solar, Tata Power Solar, and others. The following are the leading companies in the micro inverter market. These companies collectively hold the largest market share and dictate industry trends.

Why is the micro inverter market growing?

The market is experiencing steady growth, driven by the rising adoption of rooftop solar systems and the increasing emphasis on maximizing energy efficiency. North America held the largest revenue share of 37.74% in the global micro inverter market. The micro inverter market in the U.S. is experiencing strong momentum.

How big is the 2025 micro inverter market?

At USD 4.17 billion, the 2025 micro inverter market size skews heavily toward this configuration. However, three-phase designs are forecast to expand at 19.1% CAGR, outpacing overall sector growth as Candl rooftops seek module-level monitoring to maximize limited real estate.

What is the market share of micro inverters in 2024?

By phase configuration, single-phase systems led with 72% of micro inverter market share in 2024, whereas three-phase platforms are projected to register

the fastest 19.1% CAGR through 2030. By communication technology, wired solutions held 91% revenue share in 2024; wireless platforms are poised for a 20.4% CAGR to 2030.

How much is the microinverter industry worth in 2022?

The microinverter industry was valued at USD 2.1 billion, USD 2.5 billion, and USD 2.9 billion in 2022, 2023, and 2024, respectively. Based on phase, the market is segmented into single phase and three phase categories.
