Overview

Who is building a land mobile radio network in New Zealand?

Tait Systems New Zealand is building a Land Mobile Radio Network as part of the New Zealand Government's new Public Safety Network.

What is New Zealand's new radio network?

The new network will give emergency responders - including Fire and Emergency New Zealand, Wellington Free Ambulance, Hato Hone St John, and Police - a nationwide, encrypted, resilient, digital radio communications network they can rely on when they need it most.

What is the New Zealand Public Safety Network?

The Public Safety Network is the new communications service for New Zealand's frontline emergency services responders being rolled-out from mid-2023. Fire and Emergency, Police, Hato Hone St John and Wellington Free Ambulance will be the network's first users and there is scope for other government agencies to join in the future.

What is the EMS service in New Zealand?

The EMS service in New Zealand is International Courier, part of New Zealand Post which New Zealand's designated universal postal service provider, supporting customers, businesses and communities worldwide. New Zealand Post was founded in 1840 and joined the EMS Cooperative in 1999.

What is New Zealand post EMS?

New Zealand Post was founded in 1840 and joined the EMS Cooperative in 1999. International Courier delivers EMS six days of the week reaching 4.7 million consumers and businesses. Customers can easily access EMS at 882 retail outlets and post offices across the country.

What does tsnz do?

TSNZ will also provide the new radio devices for frontline responders, and their buildings and vehicles. Digital Land Mobile Radio supports 'push to talk' communications which are used extensively by emergency services, and it provides location services, and is encrypted and secure.
