

SolarInvert Energy Solutions

Nordic battery storage cabin supply

Overview

What does Nordic batteries do?

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries we focus on what is important: safety, reliability and performance.

Is the Nordic battery value chain a good investment?

In 2021 the Swedish Energy Agency and Business Sweden published two reports* concluding the complementary strengths within the Nordic battery value chain, a strong momentum for industry potential, a shared interest in joint trade and investment promotion as well as a need for coordinated actions.

What is the largest energy storage investment in the Nordics?

It is a great honor to inaugurate the largest energy storage investment in the Nordics, with 211 MW now connected to the power grid. Thanks to the efforts of Ingrid Capacity and BW ESS, we are reducing grid congestion and enabling increased power production.

What is the largest unified battery storage portfolio in the Nordics?

Sweden's Minister for Climate and the Environment Romina Pourmokhtari has inaugurated the largest unified battery storage portfolio in the Nordics, a pioneering initiative developed by Ingrid Capacity in partnership with BW ESS.

What is the Nordic battery collaboration?

The Nordic Battery Collaboration is a key initiative. The decision to carry out this report was taken by Business Sweden, Business Finland, Innovation Norway and the Swedish Energy Agency together. All parties are financing the report. The report is conducted by Business Sweden.

Why is the Nordic battery ecosystem important?

Actors within the Nordic battery ecosystem are active on global markets with strong ambitions and devotion to sustainability. The European context is decisive for business as Europe and the EU is the main region for Nordic trade and investments.
