Number of 5G base stations in Sweden

Overview

Does Sweden have 5G?

5G deployment is underway in Sweden. In October 2023, 92% of the population had coverage from 5G networks. The government has not imposed any requirements on operators regarding the deployment of 5G, but there are coverage requirements in various frequency bands in order to improve mobile coverage in Sweden.

How many 5G base stations are there in China?

In data collected between July 2022 and June 2024, China was reported to have had around 3.5 million 5G base stations installed across the country, with Chinese mobile operators investing heavily in 5G infrastructure. By comparison, the European Union had around 460,000 thousand base stations, while the United States had approximately 175,000.

Which countries have the best 5G coverage?

The report considers publicly available data on 5G coverage, connection speeds, and the extent of developments in private networks in the countries that disclose the respective data. The report also presents a tool for scoring network coverage and speeds, highlighting countries such as Italy, the Netherlands, and Denmark with almost 100% coverage.

Which University in Sweden has a 6g network?

Further, Luleå University of Technology is the first university in Sweden to obtain a frequency licence from the Swedish Post and Telecom Agency to conduct 6G tests in a simulated mining environment. The 6G network is currently being installed in the underground lab at Luleå University of Technology.

Is Huawei exclusion from 5G deployment in Sweden a pending dispute?

There is a pending dispute between Huawei and Sweden at the International

Centre for Settlement of Investment Disputes regarding the exclusion of Huawei from the deployment of 5G in Sweden (ICSID Case No. ARB/22/2). The tribunal has permitted the European Commission to intervene in the proceedings as a non-disputing party. 9.

How much does Sweden spend on 6G research in 2024-2026?

The Swedish Government has awarded Vinnova (the Swedish innovation agency) SEK 250m (USD 23m) and the Swedish Research Council SEK 140m (USD 12.8m) for the mission to strengthen fundamental 6G research in Sweden for 2024-2026.
