

### **SolarInvert Energy Solutions**

# One-stop service for photovoltaic power supply and energy storage

#### **Overview**

Why do we need solar and storage solutions?

Serving energy transition and low carbon world by empowering the deployment and integration of solar and storage solutions. We did not wait for the energy crisis and public awareness of climate change to become experts in the planet's oldest form of sustainable energy.

What is Sungrow energy storage system?

Sungrow provides a one-stop energy storage system (ESS), which includes a power conversion system/hybrid inverter, battery, and integrated energy storage system.

What is a mobile PV-Bess fully automated station?

Combined with intelligent energy storage management, the Mobile PV-BESS Fully Automated Station provides an innovative solution for mining power supply. It not only realizes true zero-carbon power generation at the technical level, but also demonstrates unparalleled advantages in terms of economic efficiency and flexible scheduling.

Why should you choose a battery energy storage system?

Our advanced battery energy storage systems enable efficient energy management and utilization by complementing our PV inverters. Our storage systems enhance grid flexibility and resilience by storing excess energy during periods of low demand and delivering it when needed.

Does sugrow offer a battery energy storage system?

Sugrow provides comprehensive portfolio, which includes PV inverters and battery energy storage systems. Sungrow PV inverters are designed with cutting-edge technology to maximize solar energy generation. Our advanced battery energy storage systems enable efficient energy management and utilization by complementing our PV inverters.

Who is equans solar & storage?

In this context, our customers expect a global, trusted, top-flight expert to serve as a partner and provide fully integrated solutions with the highest performance and reliability. That is why we have brought together our finest engineers and technicians under a single name: Equans Solar & Storage.
