Oslo wind solar and energy storage settled

Overview

Who owns the energy storage project near Oulu?

Å Energi has acquired a majority stake in the Isokangas energy storage project near Oulu. The 50 megawatt/1hour energy storage facility to be completed in 2026 is a significant milestone in strengthening the flexibility of the Nordic electricity grid and the security of energy supply. 04. June 2025.

Should Energi expand its energy storage portfolio in Finland?

"Finland is a promising market for energy storage projects, being well set up for ancillary services and with growth forecast in the wholesale electricity market. This makes the country ideal for Å Energi to expand its energy storage portfolio", says Atle Knudsen.

Is Finland a good country for energy storage?

"We are very happy that our third energy storage project in Finland is with first class partner Å Energi. Finland is an excellent country for renewable energy and energy storage, with a stable regulatory framework and a positive and forward thinking grid operator in Fingrid." stated Hannu Koivusalo, Chairman and Managing Partner of AMP Tank.

Is Energi the most forward-looking Renewables Group in the Nordic region?

This acquisition reinforces Å Energi's ambition to be the most forward-looking renewables group in the Nordic region. Å Energi is Norway's biggest renewable energy group, with operations throughout the value chain from electricity generation to end users.
