# Philippines new energy storage equipment

#### **Overview**

What is the future of energy storage in the Philippines?

Under the Philippine energy scenario, peak demand is seen growing by 5.3 percent annually until 2028. Energy storage is stepping into the spotlight of the country's green transition, with more companies making bold investments to unlock its game-changing potential.

What is the Philippines' first solar-plus-storage hybrid?

The Philippines' first large-scale solar-plus-storage hybrid (pictured), was commissioned in early 2022. Image: ACEN. The Philippines Department of Energy (DOE) has outlined new draft market rules and policies for energy storage, a month after the country allowed 100% foreign ownership of renewable energy assets.

How much battery storage capacity will the Philippines have?

As the Philippines gears up for the entry of more renewables into the grid, the government anticipates close to 2,000 MW of battery storage capacity to complement them. According to DOE data as of end-March, ESS projects with a combined capacity of 594 MW are committed to come online over the next three years.

Are there opportunities for energy storage in Southeast Asia?

A feature article in the most recent edition of our quarterly journal, PV Tech Power, looked at the emergence of opportunities for energy storage in the Southeast Asia region, driven by a need to meet rising demand for electricity in a part of the world experiencing rapid economic growth.

What are energy storage systems?

It said the definition of energy storage systems, or ESS, will be facilities capable of absorbing energy generated from a renewable energy source or generation facility connected to the grid, and injecting stored energy when

needed.

What are the largest hydropower projects in the Philippines?

Among the largest projects is the 2,000 MW Maton pumped storage hydropower facility in Apayao, led by Pan Pacific Renewable Power Philippines Corporation. San Roque Hydropower Incorporation received endorsements for twin 800 MW pumped storage projects in Benguet.
