

SolarInvert Energy Solutions

Photovoltaic inverter company announcement

Voltage range: 691.2-947.2V

>6000 cycles (100%DOD)

Rated battery capacity:
216KWH (customizable)

EMS communication:
4G/CAN/RS485

Overview

On August 25, the leading photovoltaic inverter manufacturer Sungrow Power Supply plans to list in Hong Kong to deepen its global strategic layout; Huada Technology has secured a major order worth 2.6 billion yuan; Anke Bio's exclusive agent product recombinant follicle-stimulating hormone has been approved for market launch. Where are solar PV inverter shipments coming from in 2021?

In terms of geographic reach, Asia Pacific consumed over half or 116,064 MWac of the global solar PV inverter shipments in 2021. Shipments to China, India and Australia accounted for the increase in demand, with Huawei and Sungrow maintaining its dominance in the region. Europe took up 23% of the global market with 50,770 MWac inverter shipment.

How pvbl ranked the top 20 global photovoltaic inverter brands in 2023?

On the first day of the conference, PVBL's annual ranking of the Top 20 Global Photovoltaic Inverter Brands was announced. Preferential policies promoted the inverter market growth in 2023. Most of the major inverter companies won a large amount of orders and expanded their capacity with high shipment volume.

How will photovoltaic inverter shipments change in 2021/2022?

It is expected that the company's photovoltaic inverter shipments will reach 47GW/66-70GW in 2021/2022, of which the distributed installed capacity will increase significantly. At the same time, quickly seize the newly added distributed installed capacity market. "Cellless" energy storage system strategy, the energy storage business doubled.

What is the market share of a photovoltaic inverter in 2021/2022?

The company's inverter product market share ranks first in the world. It is expected that the company's photovoltaic inverter shipments will reach 47GW/66-70GW in 2021/2022, of which the distributed installed capacity will increase significantly.

How has the inverter industry changed over the years?

After years of competition, the inverter industry has become quite stable. The overall ranking of the list has not changed much, as most of the leading inverter manufacturers have developed their respective core products, including central inverters, string inverters, micro inverters and energy storage, in a balanced manner.

Which inverter companies are leading the market growth in 2023?

Preferential policies promoted the inverter market growth in 2023. Most of the major inverter companies won a large amount of orders and expanded their capacity with high shipment volume. Sungrow and Huawei tied for first place in the list with outstanding performance.
