

## **SolarInvert Energy Solutions**

# Photovoltaic inverter prospects and trends

### **Overview**

What are the trends in the PV inverter market?

PV Inverter Market Trends Rising demand for storage along with PV systems: The growing demand for battery storage solutions in conjunction with photovoltaic or solar systems is having a substantive impact on the PV Inverter Market.

What is the global PV inverter market share?

A growing number of solar installations in developing nations has also significantly contributed to growth of market in the region. Europe: The PV Inverter Market in Europe holds 10% share in the market and the presence of major players in the region. Figure 1. Global PV Inverter Market Share (%), By Region, 2025.

What was the market size of PV inverter in 2024?

The market size for PV inverter was valued at USD 34.6 billion in 2024 and is projected to reach USD 90 billion by 2034, growing at a CAGR of 9.5% during the forecast period. What was the market share of the three-phase segment in 2024?

.

What drives the PV inverter market?

The PV inverter market is poised to grow significantly over the next five years, driven by declining prices of solar panels and supportive government policies and regulations around the world. Major drivers for the market include countries mandating renewable energy generation targets and incentives for rooftop solar installations.

How much is the PV inverter market worth?

The PV inverter market was valued at USD 25.5 billion, USD 29.9 billion, and

USD 34.6 billion in 2022, 2023, and 2024, respectively. The string inverter market is expected to grow at a CAGR of 9.8% between 2025 and 2034 due to their cost-effectiveness, scalability, and ease of installation.

Which country has the largest PV inverter market in 2023?

The U.S. emerged as the largest market in North America in 2023. It is a significant market for different types of PV inverters. Some recent inverter trends in the U.S. include an increase in the sizes of central inverters (1.5 MW plus) and three-phase string inverters (60 kW).
