Photovoltaic power generation and energy storage installation in Cuba

Overview

How many photovoltaic panels are installed in Cuba?

Photovoltaic panels. Source: Amaury Pérez Sánchez So far in Cuba, 227 MW have been installed in photovoltaic systems connected to the electricity system, of which 215 MW in 72 farms synchronized with the Electric System and 12 MW installed on roofs and areas belonging to the entities.

What types of energy systems are covered in Cuba?

Coverage includes generation and storage systems, renewable energy installations (hydropower, solar PV, wind, biomass, ocean, and solar thermal), electrical grid history and characteristics, and an analysis of Cuba's electrical energy resiliency.

Which provinces have the most photovoltaic capacity in Cuba?

The provinces with the greatest progress on this sector are Artemisa, Granma, Cienfuegos, Sancti Spíritus, and Pinar del Río (Figure 4). 4. Photovoltaic capacity installed throughout Cuba. Source: UNE
