# Poland Krakow lithium iron phosphate energy storage lithium battery

#### **Overview**

Who will supply ESS batteries in Poland?

The contractor on the project will be LG Energy Solution Wrocław. The Polish unit of the Korean battery maker won the project tender offering the price of PLN 1.555 billion (\$384 million). On Monday, LG Energy Solution confirmed that it had signed an agreement with PGE to supply 981MWh of grid-scale ESS batteries between 2026 and 2027.

When will LG Energy Solution start delivering lithium iron phosphate (LFP) batteries?

The company announced that it signed a battery supply agreement with PGE on March 24. Under this deal, LG Energy Solution will begin delivering lithium iron phosphate (LFP) batteries for ESS starting in 2026, manufactured at its Wroclaw facility in Poland.

Will PGE be able to supply ESS batteries in Poland?

South Korean company LG Energy Solution has signed an agreement with PGE, Poland's largest energy sector company, to supply 981 MWh of grid-scale ESS batteries between 2026 and 2027. The two companies will collaborate to establish a battery energy storage facility in Żarnowiec, Poland. PGE plans to commence commercial operation in 2027.

Will LG supply lithium iron phosphate (LFP) batteries for ESS?

Courtesy of LG Energy Solution LG Energy Solution plans to supply lithium iron phosphate (LFP) batteries for ESS produced at its Wrocław plant starting in 2026.

What is the largest battery energy storage facility in Poland?

With a power output of 262 MW and a storage capacity of around 981 MWh, the facility will be by far the largest battery energy storage facility in Poland and one of the largest in Europe. The contractor on the project will be LG

Energy Solution Wrocław.

What is the Zarnowiec battery energy storage project?

One of these will be the 981 MWh Zarnowiec battery energy storage project, which will be supplied with locally produced LG Energy Solution's grid-scale systems. PGE Group has laid down ambitious plans for energy storage deployment over the next ten years.
