#### **Overview**

How many solar plants will Ivory Coast have by 2040?

Likewise, the government plans to reach 1,686 MW by 2040. The Minister of Mines, Oil, and Energy of the Ivory Coast, Mamadou Sangafowa Coulibaly, has declared plans to add 678 MW of solar capacity by 2030 and 1,686 MW by 2040. Plans for the 12 new solar plants with a combined capacity of 628 MWp are listed on the government website.

How many solar plants will Côte d'Ivoire build?

The Republic of Côte d'Ivoire is planning to build 12 photovoltaic solar plants with a combined capacity of 678 MW in different parts of the country by 2030. Likewise, the government plans to reach 1,686 MW by 2040.

When will a solar power plant open in Côte d'Ivoire?

In the northern region of the Côte d'Ivoire, the first phase of a solar power facility has been officially opened. The Boundiali solar power plant's financing was initially revealed in 2018, and details of its commissioning were made public in December 2022.

What's going on at a solar plant in France?

The 37.5 MW plant — which is being described as the nation's first significant solar array — will supply electricity to Compagnie Ivoirienne d'Electricité, the nation's utility. At the solar plant, the second phase of work has begun and is anticipated to be finished by April 2025.

How much does a solar plant cost?

At the solar plant, the second phase of work has begun and is anticipated to be finished by April 2025. At a total cost of €75.6 million (\$81.8 million), the project is anticipated to save 60,000 tonnes of CO2 equivalent year by providing electricity to 70,000 homes.
