

### **SolarInvert Energy Solutions**

# Prishtina lithium iron phosphate battery energy storage container price

#### **Overview**

How much does lithium carbonate cost in 2024?

That euphoria was dashed by the time Intersolar North America 2024 took place as US\$20/kg lithium carbonate pricing fell to US\$14/kg. This left many to wonder where the floor for lithium really is. Interviews with ESS developers by CEA at the event revealed pricing for DC containers had dropped again, with average pricing at US\$150/kWh.

Is lithium carbonate a frothy market?

The primary price driver is universally recognised as a frothy lithium market that suddenly lost its fizz. Lithium carbonate pricing is down more than 80% from its 2022 peak.

Does Rio Tinto have a lithium reserve in Serbia?

Rio Tinto is exploring a lithium reserve in Serbia's Jadar area. A new economic cooperation team will provide assistance to the governments, business community, DFC, US Export-Import Bank, US and European Union institutions and all participants in the processes, according to the announcement.

How many tons of lithium are there in 2023?

By the end of 2022, supply estimates for 2023 had grown to 864,000 tons, surpluses were nil and long-term shortages were expected. The market shifted dramatically in 2023, and S&P's latest estimate pegged global lithium supply at 968,000 tons, corresponding to a market surplus of 95,000 tons.
