

SolarInvert Energy Solutions

Rtk base station power supply AC

Voltage range: 691.2-947.2V

>6000 cycles (100%DOD)

Rated battery capacity:
216KWH (customizable)

EMS communication:
4G/CAN/RS485

Overview

When using the D-RTK 2 Mobile Station as a stationary base station, use the Power Adapter Cable and AC Power Adapter to connect to the AC power for long-term power supply. How do I fix a D-RTK 2 mobile station?

Restart the D-RTK 2 Mobile Station after flight and wait for it to enter the RTK FIX status. Power on the D-RTK 2 Mobile Station, wait until system initialization is completed, and enter Operating Mode 3. Power on the remote controller and make sure that the app is launched.

What is D-RTK 2 mobile station?

D-RTK 2 Mobile Station is DJI's upgraded high-precision GNSS receiver that supports all major global satellite navigation systems, providing real-time differential corrections that generate centimeter-level positioning data for improved relative accuracy. D-RTK 2 Mobile Station fully supports GPS, GLONASS, Beidou, and GALILEO signals.

What is a D-RTK 2 high precision GNSS mobile station?

Operate with caution in severe weather conditions. The D-RTK 2 High Precision GNSS Mobile Station is a high-precision satellite signal receiver that supports four global satellite navigation systems: GPS, BEIDOU, GLONASS, and Galileo with 11-band satellite signal* reception.

How do I update the firmware on my D-RTK 2 mobile station?

Connect the D-RTK 2 Mobile Station to the computer via the USB-C cable. Launch DJI Assistant 2 and login with a DJI account. Click D-RTK 2 and then click the firmware update tag. Select the desired firmware version. DJI Assistant 2 will download and update the firmware automatically. An app version that supports firmware update is required.

How do I set RTK settings for a handheld mapping device?

In RTK Settings, select the RTK signal source for the handheld mapping

device. Make sure that the D-RTK 2 Mobile Station used as a handheld mapping device is connected to another D-RTK 2 Mobile Station used as a base station or a Network RTK server. Set the planning method to handheld RTK for operation planning.

How do I start the motors on a D-RTK 2 mobile station?

Start the motors when the RTK icon displays FIX or the status of both the aircraft's orientation and positioning in the status table in RTK settings show FIX. During flight, if the D-RTK 2 Mobile Station is moved or it is powered off, the aircraft RTK will switch to GNSS mode and will not enter the RTK FIX status again.
