Small container transport from Ecuador to Rong Energy passes through stations

Overview

How cargo is transported from Shanghai to Yichang?

Most cargos are delivered from Shanghai port to river ports by vessels and then transshipped from the river ports to customer cities by train. Moreover, Tongling, Jiujiang, and Yichang ports serve as transshipment ports in the solution, from where cargos are transshipped to other ports.

What cargo is transported through the river ports of China in 2015?

The main cargos through the river ports of China in 2015 are mineral building materials (31%) and coal (including coal products) (20%) (Asian Development Bank, 2016). Bulk cargo is typically transported via bulk carriers because of the scale economics of bulk carriers on ocean routes (Clott et al., 2015).

How will port energy systems change the industrial ecosystem?

The transition of port energy systems will be accompanied by a corresponding shift in the port industrial ecosystem. Offshore wind power generation. Through the maritime interface, ports can access large coastal oceanic areas, offering wind generation opportunities.

Which inland customer cities transport goods directly from the Yangtze River?

The results show that inland customer cities near the lower reaches of the Yangtze River transport goods directly by rail from Shanghai Port, such as Hangzhou, Huangshan, and Hefei. The ports of Jiujiang and Wuhan serve as transshipment ports.

Should ports and maritime shipping improve their environmental performance?

Even if ports and maritime shipping account for only about 3 to 5% of global carbon emissions, there are pressures to improve their environmental performance, primarily due to their high level of integration with energy supply chains.

What makes a successful container transport by rail?

Successful container transport by rail depends on close cooperation with trusted partners. This cooperation enables a flexible pricing policy and guarantees a high quality of service. The first step is to prepare the load properly. This includes packing, securing and marking the containers so they are ready for shipment.
