Solar power storage in China in Qatar

Overview

What is Al Kharsaah photovoltaic power station?

The 800-megawatt Al Kharsaah photovoltaic (PV) power station in Qatar was put into operation on Oct 18. Generally contracted by Power Construction Corporation of China (POWERCHINA), the station is the first non-fossil fuel power station in the country and one of the largest PV power stations in the Middle East.

Where is Al-Kharsaah solar power plant located?

An aerial view of the Al-Kharsaah Solar Power Plant. The Al-Kharsaah Solar Power Plant, developed in the Al-Kharsaah area of western Qatar on a 10-square-kilometer area of land, is the country's first non-fossil fuel power plant and currently the world's third-largest single-unit photovoltaic power project.

Why is powerchina a green power station?

During construction, POWERCHINA adhered to green engineering and made detailed plans to protect local plants and wild animals. As a part of the Qatar 2030 National Vision, the power station is expected to meet 10 percent of the country's peak electricity demand.
