Is back-up power a solution to South Africa's energy crisis?

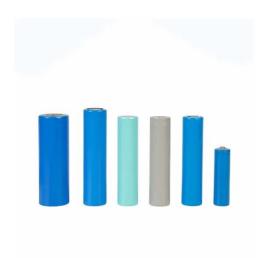

The current energy crisis in South Africa, coupled with the decreasing cost for energy storage systems, will see the market for back-up power as a replacement for diesel generation and solar PV hybrid increase.

How big is a solar PV storage market?

If a quarter of new build solar PV systems installed have a storage component coupled to it there could be a potential storage market of roughly 200MWh per annum which can be translated to roughly R2 billion market size in a year. Case studies that demonstrate the business case.
