Valley Power Energy Storage Project

Overview

What is the valley center battery storage project?

VALLEY CENTER, CA – FEBRUARY 15, 2022: Terra-Gen, a leading operator and developer of critical renewable energy projects, today announced the Valley Center Battery Storage Project is online and providing clean energy to the local power grid.

What are the benefits of the project for Valley Center?

Benefits of the Project for Valley Center Energy storage increases the resiliency and reliability of the transmission system in Valley Center and the local area.

Does Terra-Gen have a Valley Center project?

"Our Valley Center Project has been successfully dispatching power to the local grid since December, and we're proud to report that the facility is now 100 percent online," said Mark Turner, Vice President of Energy Storage for Terra-Gen. "The Project is built to provide 140 megawatts into the local area for up to four hours.

Why is battery storage important in California?

Battery storage is also needed to support renewable generation. For California to meet its goal of a zero-carbon future, more battery storage projects like Valley Center will be needed to bring renewable energy into homes, Turner said.

How much money will Terra-Gen give to the valley center fire protection district?

There will also be millions of dollars in property tax benefits resulting from the Project. Terra-Gen has also donated \$250,000 to support the Valley Center Fire Protection District's new fire station off of Cole Grade Road.
